THE MAFIA MUDDLE.

Causeless Killing of a Coker.

PRESIDENT ONWARD TO OREGON.

Russian Reciprocity and the Dardanelles.

Professor Ives with a Provisional "If."

Mafia Muddle.

WASHINGTON, May 4.—It does not appear to the judgment of the State Department people that the note of the Marquis Rudini to Marquis Imperiali who is now representative of Italy in the United States, published this morning, had changed the situation, either for the better or worse. In the first place, the note is not addressed to Secretary Blaine and it is safe to say its tenor would have been entirely different if it had been. Nor was it intended to be shown to him. It is regarded here as "intended solely for Domestic Consumption," being rather cleverly calculated among the Italians, with the idea that their government is pursuing a vigorous policy while taking advantage of the political vagueness of expression and form to prevent the United States from having any ground for resentment, for of course Secretary Blaine can take no notice of the communication, as it is expressly stated, it is not intended for his perusal. There has been no correspondence between the governments since Blaine's note of April 14th to Imperiali. The next step to be taken by this government will probably be in the shape of an epistle founded on the report of the District Attorney at New Orleans in regard to the nationality and character of the dead Italian, and touching the position of Porter, our Minister at Rome. Nothing yet has been done by Secretary Blaine.

Half a Million Left.

CHICAGO, May 4.—B. H. Hutchinson, the board of trade speculator, about whose sudden disappearance so much has recently been published, left here this morning for Boston. It is his intention to take a vacation in the east. Meantime his affairs will be administered by his sons. Examination shows them in much better condition than they supposed they would be and when everything is settled up he will have left about \$500,000.

Alien Contract Labor.

NEW YORK, May 4.—A large number of recently arrived immigrants are found to be possessed of little or no money, and on being questioned, they gave their destination as Chicago and say they will get work as soon as they arrive there. The Barge office authorities are suspicious of these immigrants coming here under contract. There were fifty Hungarians detained yesterday and seventy-five more to-day.

Influenza Spreading.

LIVERPOOL, May 4.—Influenza is spreading alarmingly here. Numerous clergymen are ill with the malady and at many of the churches services could not be held yesterday in consequence. It has been found necessary to close the Woolton Convalescent Institute as the whole staff of doctors and nurses are prostrated with influenza.

Ives With an If.

ST. LOUIS, May 4.—Prof. Halsey C. Ives, of Washington University, will accept the position of director of fine arts of the World's Fair if the duties of his office will not require him to leave the University and if the faculty will grant their approval.

Barnaby Case.

BOSTON, May 4.—It is stated that the Barnaby case has now been placed in the hands of the Boston Detective Bureau and every person who has figured in the case is instructed to keep silent.

Drowned at the Ford.

OSAWATOMIE (Kan.), May 4.—Yesterday afternoon Frank Williamson and child were drowned by the overturning of a wagon while fording the river west of here. His wife was rescued.

Labor Troubles.

By Associated Press.
UNIONTOWN (Pa.), May 4.—Last night Superintendent Gray and the pit bosses of Leisnering No. 3 went to the rescue of two men who had been at work and were being held prisoners by the strikers. They were set upon and stoned, when the deputies came to their aid. A shot was fired by the strikers. Superintendent Gray then ordered the deputies to fire, and in the volley which followed John Mahan, a striker fell dead and another received a mortal wound. The situation is now reported quiet.

At Leisnering No. 3 the men are better armed than at any other point in the region, and they have been drilling for the past three weeks. Such preparations look warlike and further trouble is feared in the neighborhood. The coke operators report an increased number of men at work at the various works in the region. Company E, Tenth Regiment, proceeded to the Donnelly and Mayfield plants of the McIntire Coke Company this morning to preserve peace during the evictions at these points to-day.

A dispatch from Dunbar tells a different story of last night's shooting. It is in effect that Gray, Callaghan and Agnes, all bosses, were escorting Mahan to work, and the deputies, mistaking them for rioters, opened fire upon them, killing Mahan instantly.

PITTSBURGH, May 4.—The Chronicle-Telegraph, a Scottish (Pa.) special says the labor people are in a state of excitement to-day over what they term the cold blooded murder of one of their number at Leisnering No. 3 last night. John McSloy, a member of the Executive Board, has just arrived from Dunbar where he has just sworn out warrants for the arrest of Superintendent Gray, yard boss Agnew and pit boss Callahan, and two of the Pinkerton guards, charging them with the murder of a Slav named Mahan. The arrests will be made this afternoon. McSloy said the shooting was entirely uncalculated. The strikers were only jeering at Superintendent Gray and party over their failure to get men to return to work when the Pinkerton guards opened fire on the strikers with Winchester rifles, killing Mahan and wounding another. The labor people are swearing vengeance and more trouble may follow in the next few hours. The coke company and people charged with the shooting refuse to talk on the matter and the Coroner refuses to talk on the matter and will investigate at Bradford. Sheriff McCormick made twenty-eight evictions this morning. It is reported there was trouble and that a number of deputies were roughly handled.

BRUSSELS, May 4.—The Northeastern French and Belgian coal fields are, in main, idle. The men, however, are acting in a law-abiding manner. The only scene of disorder which was recorded occurred near Liege. There was a fight yesterday near that town between the strikers and gendarmes. The latter were getting the worst of the encounter and finally used their revolvers. The result was that several rioters were wounded.

The miners and iron workers strike in Liege and Charleoid districts is complete, and is spreading to Borinage district, in the Province of Hainaut. Fifty thousand men are out of work in central Belgium. There has been more rioting at Liege. Several more people were injured.

FOURMIES, May 4.—The situation here to-day is grave. The greatest excitement prevails throughout the town and vicinity. The state of feeling can be best judged from the fact that many leaders of the popular movement, best known representatives of the labor party, started for Belgium for arms and dynamite for use against the troops here. The reports reached here that a quantity of dynamite, destined for the people of this town, was seized while being smuggled across the frontier from Belgium.

The cavalry pickets will be stationed all along the route of the funeral procession of the victims of the May Day massacre, for such is the term applied to the tragedy by the people here. The government has sent two delegates here with instructions to make a thorough investigation into the causes which led to the disturbance on Labor Day and into the action of the laborers who ordered the troops to fire on the people.

Forest Fires.

MAYS LANDING (N. J.), May 4.—The heavy rains have quenched the forest fires around here and in the vicinity of Pleasantville. In addition to the great loss sustained by the burning of valuable timber much small game has been destroyed and the wild berries are ruined.

Frost in Iowa.

By Cable and Associated Press.
BOON (Ia.), May 4.—A sharp frost this morning did some damage to the fruit in this section.

The President at Red Bluff.

Special to the Gazette.
RED BLUFF, May 4.—The President arrived here at 8:30 o'clock this morning and had a warm reception. An immense crowd gathered at the depot and several baskets of cut flowers were handed into the train. President Harrison was introduced from the car platform by Colonel James Matlock, a member of the Harrison command during the war. The President spoke as follows:

"My friends, it is very pleasant to meet here an old comrade of the 70th Indiana volunteers. Your fellow citizen, Captain Matlock who has spoken for you commanded one of the companies of my regiment and is therefore a very old and dear friend. Once before in California I had a like surprise. The other day a Glee Club began to sing a song that was familiar to me, and I said to those standing about me, 'Why that song was written by a Lieutenant in my old regiment and I haven't heard it since the war.' Presently the leader of the Glee Club turned, his face towards me and I found he was the identical Lieutenant and composer of the song, singing it for my benefit. All along I have met old Indiana acquaintances and am glad to see that whether of my old command or from other regiments of the great war, they all seem to be prosperous and happy. Seriously, my friends, you have a most beautiful State, capable of promoting the comfort of your citizens in a very high degree, and although already occupying a high place in the galaxy of States, it will, I am sure, take a much higher one. It is pleasant to see how the American spirit prevails among all your people, love for the flag and the constitution and those settled and permanent things that live whether men go or come. They come to us from our fathers and will pass down to our children. You are blessed with a genial climate and most productive soil. I see you have in this northern part of California what I have seen elsewhere—a well ordered community with churches and schoolhouses, which indicate that you are not giving all your thoughts to material things, but are thinking of those things that qualify the soul for the hereafter. We have been treated to another surprise this morning in the first shower we have seen in California. I congratulate you that it rains here, May all blessings fall upon you like this gentle rain." [Cheers.]

Secretaries Wanamaker and Rusk and Mrs. Harrison, Mrs. McKee and Mrs. Russell Harrison made their appearance and were loudly cheered. Mr. Wanamaker said he was greatly interested in boys and shook hands with a large number of them. The party started north at 9 o'clock.

At Redding the President and party were met with a national salute and a shower of flowers from the school children. Mayor Buggman and members of the City Council gave the President a formal welcome. Judge Bush introduced the President to the crowd and he made a short address.

DUNSMITH (Cal.), May 4.—A large crowd greeted the President at Dunsmuir, where he arrived at 1:15 p. m., and many old soldiers shook his hand.

Pool Selling Decision.

CINCINNATI, May 4.—Judge Perkins to-day, in his charge to the Grand Jury of Kenton county, Ky., in the cases of the Covington pool sellers, said under a recent decision of the Court of Appeals, selling pools on races is not gambling. He also said the pool rooms were indictable for a nuisance, but that nuisance under the law must be continuous, and he therefore said arresting pool sellers for each pool sold is not according to law.

The President's Intention.

WASHINGTON, May 2.—The Post says that when the President and Mrs. Harrison return from their Western trip they will take up their residence at Cape May Point, where the President will spend as much of his time as possible. It is the intention of Mrs. Harrison to have a number of improvements made in the White House during her absence.

For Falsifying.

NEW YORK, May 4.—Edward E. Gednev, President of the North River Bank, and Cashier Frank Ingersoll were arrested this afternoon and held in \$15,000 each. They are charged with falsifying a quarterly report of the bank made in 1890. The complaint is made by the receiver. The bank officers gave bail and were released.

Chicago Market.

CHICAGO, May 4.—There was a lively time in wheat opening to-day, and it continued all day. Bearish cables and heavy selling orders caused July, which opened at 104½ to 104½, to drop to 103, a reaction to 103½ following; there was another break and then a decline to half a cent above a dollar, that being the closing price.

Russian Reciprocity.

By Cable and Associated Press.
BERLIN, May 4.—The work of negotiating France commercially, was commenced by the German-Austrian commercial treaty, which is just signed and which for the last twelve years has been progressing in a manner satisfactory to the originators of the scheme. It has already been announced that Germany has opened negotiations with Russia with a view to arranging Russian co-operation in the projected commercial union. Concert with Russia it was added at first sight appeared improbable, but under the German-Austrian treaty provision was made for treating with other powers reciprocally, both countries being able to offer Russia benefits of a differential tariff. To-day it is definitely announced that negotiations for a commercial treaty between Germany and Russia are commenced and that Russia promises to treat the matter with liberality if the German government will support the Russian proposition to abolish the interdiction at present placed by the treaty of '41, confirmed in London in 1871 and in Berlin in 1878, upon the passage of warships through the Dardanelles. The stand which Russia has taken in this matter is due to the fact that two Russian vessels belonging to the volunteer fleet and loaded with military workmen and material on their way to Vladivostok, the eastern terminus of the trans-Siberian railroad were stopped recently in Dardanelles under provisions of the treaty referred to.

A Mob in Hungary.

By Cable and Associated Press.
VIENNA, May 4.—A dispatch received from Bokes, Hungary, states that there were renewed scenes of disorder there yesterday. Immense crowds surrounded the prison and demanded the relief of their comrades who were arrested. The police present were unable to control the crowds and had to send for troops. The military soon cleared the streets, and many of the leaders of the people are being arrested.

Heavy Failure.

By Associated Press.
NEW YORK, May 4.—Jessie H. Lipincott, sole lessee of the American Graphophone Company and President of the North American Phonograph Company, assigned to-day, with preferences amounting to \$250,000. The liabilities are estimated at \$500,000 and assets at \$400,000. The American Graphophone Company and the American Phonograph Company are not, it is said, affected by this failure.

Come to Grief.

BOSTON, May 4.—Andrew A. Meyer and Benjamin Waller, respectively Treasurer and Director of the Eastern Investigation Company, which concern was ordered to suspend business in this State last Saturday, were arrested on a charge of conspiracy to defraud. The charge is made by one of the stockholders of the company.

An Attempt at Assassination.

PANAMA, May 4.—The recent attempt at rebellion in Bolivia has been suppressed. Now it is stated that an attempt to assassinate the President was accidentally discovered. A number of soldiers were found to have been supplied with ball and ammunition for the purposes.

Bricklayers' Strike.

By Cable and Associated Press.
LONDON, May 4.—The bricklayers in most of the centers of England have struck for higher wages. The strike is causing much annoyance to contractors and has thrown out of employment a large number of men belonging to the Associated Trades.

Cigar Strikers in Chicago.

CHICAGO, May 4.—From 800 to 1,000 cigar-makers of this city have gone out for advance of wages. Many smaller employers conceded the advance asked, but the larger factories have not given in and some of them have shut down entirely.

Burned to Death.

ROCHESTER (N. Y.), May 4.—Early this morning a two-story frame building was burned, and Herman Stephansky and wife perished. Other inmates had a narrow escape from death. The fire originated from a lamp explosion.

A Railroad Wreck.

OMAHA, May 4.—A heavy freight train in the Union Pacific yards was derailed last night and the engine and five loaded cars demolished. Conductor George Gleason was killed and the engineer and fireman seriously injured.

The Machinists in Session.

PITTSBURGH, May 4.—The annual convention of International Association of Machinists opened here this morning with 175 delegates from all parts of the United States, Canada and Mexico present.

Horrible Holocaust.

By Associated Press.
CHATTANOOGA (Tenn.), May 4.—Information reached here this morning of a horrible holocaust which occurred last night at Duck Creek siding on the Chattanooga Southern railroad, thirty miles south of this city. A kitchen construction train used in building a new road, caught fire in some unknown manner and four colored men, King Meadows, John Harvey, Will Broder and Elder Miles, were burned to death. The theory is that the men were murdered and then burned.

Drowned at Benicia.

SPECIAL TO THE GAZETTE.
BENICIA (Cal.), May 4.—Another man lost his life by drowning at the railroad wharf here last night. He, with two companions, all lathers by trade, came up from San Francisco on the Oregon train at 10:45 o'clock, beating their way. On arriving here two of them got off the train on the south side of the wharf, and in the darkness one of them, Charles Riley, stepped overboard and was drowned. His companions say he was a native of Iowa and aged twenty-three years.

Artesian Water.

TEMPLETON (Cal.), May 4.—H. Wessel of this place, after two weeks boring for artesian water on his place in Templeton has been successful at a depth of 340 feet in striking water with a flow of thirty inches above the surface and still increasing.

A Knight Gone.

NEVADA CITY (Cal.), May 4.—This morning William Davis, foreman at the Derby mine, died of injuries received a week ago yesterday while on the cage descending the shaft. He belonged to the Masons and was a Knight Templar.

Echoes of Labor Day.

By Cable and Associated Press.
ROME, May 4.—The funeral of the Gendarme killed in the riots on Labor Day took place here to-day. The body was followed to the grave by all the civil authorities of the city. There was no disturbance.

An Oregon Fire.

SPECIAL TO THE GAZETTE.
THE DALLES (Ogn.), May 4.—A fire this morning destroyed The Dalles Lumbering Co.'s planing mill. The loss is estimated at \$15,000; insurance, \$6,000. The fire is supposed to have been incendiary.

Taft no Better.

SPECIAL TO THE GAZETTE.
SAN DIEGO (Cal.), May 4.—Up to noon to-day there was no perceptible change in the condition of ex-Minister Taft. His physician is not so hopeful for recovery.

Weather Report.

SPECIAL TO THE GAZETTE.
SAN FRANCISCO, May 4.—Forecast, light rains in Northern California.

The County's Physicians.

The County Commissioners to-day let the contract for furnishing medical attention at the County Hospital to Drs. Dawson and Lewis for one year at \$75 per month. Drs. Hogan and Bergstein put in a bid at \$100 a month each, and Drs. Dawson and Lewis being the lowest bidders, they were awarded the contract.

Our Streets and Alleys.

It is a burning disgrace that those in authority do not take steps to see that the streets and alleys are cleaned up and kept so. There is hardly a street in town that does not have an unsightly pile of old rubbish, tin cans and the like to greet the eye of the visitor. There are three canals or ditches running through the town whose cooling waters and grassy banks should be an ornament to the place, if they were not made a dumping ground for dead cats and dogs, whose decaying carcasses are left to poison the water and the air, a source of pestilence-breeding corruption. They are the catch-alls, too, of all the old tin cans and garbage of the town, and steps should be taken to put a stop to dumping such filth in so conspicuous a place. A little labor expended in cleaning up would add materially to the health, comfort and beauty of the town, and should be looked after at once. The Chief of Police has a notice in the GAZETTE touching the subject, and if the citizens do not pay attention to it the Chief should see that the law is enforced.

PRESIDENT HARRISON'S visit to California terminated this morning and he departed for Oregon and Washington, thence on home by the Northern Pacific route. The President's reception in the Golden State was of the most hearty and enthusiastic character, and it most certainly must impress him with the fact that the people of the West are not all heathens. If the President could have arranged his time so as to have favored this State with his presence for a day he would have gone away with a better opinion of its resources and capabilities than he now has. He expressed surprise of the wonderful resources of California in nearly every place he visited, and undoubtedly made up his mind that the West is entitled to more consideration than has been shown it heretofore. The President's visit has made a favorable impression on the people and we trust that his impression of the West were equally as pronounced. If the heads of the several departments at Washington would leave the District of Columbia once in a while and stray west, we think it would be time profitably spent and money saved the General Government. The dense ignorance displayed by the average Easterner of the extreme Western States is unpardonable at this late date, and we are forced to admit that the heads of the government at Washington are not much further advanced in their knowledge of this country than the average narrow minded and bigoted Easterner.

THE Episcopal Church people are trying to raise money enough to buy a reed organ. One will cost one thousand or twelve hundred dollars, and they have now in the organ fund something like four hundred and fifty dollars. The church ought not to have any trouble in raising that amount. If for no other reason in the world the people should respond liberally to the call to gratify the wishes of Miss Quaffie, who has done more for charity and the morals of the community generally than any other ten people in the town for the past fourteen years. She is ever ready to lend her valuable time and musical talent on every occasion. The Fourth of July, Decoration Day, Christmas, New Years, at funerals and public entertainments of all kinds. Miss Quaffie is doing noble work in the community, and every father of a boy or girl in the town is indebted to her, either directly or indirectly, for some kind word of advice given with a view of elevating the moral tone of the place. Miss Quaffie is one of God's noble women, and the purchase of an organ would be but showing a just appreciation of her services during the past fourteen years.

It is now quite clear that Italy has been playing with us. She never intended at any moment to have serious trouble with the United States. We did not at first know this. But it is now certain that the Italian Premier was using the recent occasion as a sop to Italian passion manifest among the populace of that nation.

A TERRIBLE FOE.

How Mr. Paul B. DuChailin Met His First Gorilla.

DuChailin was walking, as was his custom, some distance in advance of his companions, ranged in single file, when his ears were saluted by a strange, hitherto unheard sound, says Lippincott's Magazine. It riveted his attention at once. Could it be the noise of some cannibal tribe preparing for combat, or of an elephant disturbed by his approach? He cast himself down and with ear pressed to the earth listened breathlessly. Once more the oppressive silence was broken, this time by a sound of snapping timber, loud as a gunshot, and then there came crashing to the ground a great branch of a tree—so big that he said to himself: "Goodness! These must be giants!" Another bough was pitched down and it was plain, though he could not see the enemy, the enemy could see him. Then from somewhere aloft there issued a prolonged, guttural growl, full of mischief, a blood-curdling sound never to be forgotten.

He stopped and made the native signal of danger—a peculiar clicking noise of the tongue against the roof of the mouth. He got his rifle in readiness. The bombardment of boughs had now ceased; there was absolute silence, save for the thumping of his heart against his ribs. It thumped so loud that he feared it would betray him to his unseen and unknown foe. "Wait a little, Paul, wait a little," he said to himself. "You are not ready to fight quite yet."

Peering into the twilight around and above him, he was suddenly aware of an object in his immediate neighborhood. A short, hairy, manlike creature, with a black, hideous visage, fierce, staring eyes under low brows, and enormous mouth, with huge canine teeth; his head set on an enormous chest and paunch mounted on short, crooked legs, and furnished with a pair of arms long and muscular enough to squeeze a lion to death. This was the being he had come so far to behold; this was the creature that no white man, unless it was Hanno, two thousand years ago, had ever seen. This was the gorilla.

The brute was near him before he saw it, and now it thumped on its chest. It emitted another long-drawn, terrific yell resembling the sound of thunder in the sky. It advanced; its black lips curled away from its long teeth in a savage snarl. It was not going to wait to be attacked. It was eager for a fray, and advancing, beat its breast with sounds as from a big drum.

DuChailin was alone. He drew his rifle to his shoulder. He said to himself that the nearer the creature came the better would be his chance of giving it a fatal wound. Savage though it looked, it must have a vital part. He waited until its hairy body was less than twice the length of his rifle from the rifle's muzzle. Then he pulled the trigger, aiming for a spot of the heart. It was a shot upon which a good deal depended for the young explorer—not to mention the gorilla. The smoke hung in the still air, but he saw that he had succeeded. The animal lifted its long arms and bent forward, uttering groans that were human but full of brutishness. It stumbled forward and fell on its ugly face, and was dead in a few minutes. "For," observed DuChailin, "it is lucky, though they are so strong, they die very easy." Such was the end of his first gorilla.

MICROBES UNDER THE NAILS.

A Chemist Proves That the Finger Tips Are How Diseases Spread.

There is a common belief that the finger nails are poisonous, which idea is natural enough, says the Boston Post, considering the fact that scratches made by them are generally quite irritable and much inclined to unusual inflammation.

The reasoning is erroneous, however, for, as far as is known, the nails themselves do not have any poisonous properties. The trouble excited by them is due to the foreign deposits under them. In other words, if one keeps his finger nails clean, scratches caused by them will be no more irritable than those produced by any like instrument that is considered innocent.

The results of the examinations made in Vienna show that it is more important that the finger nails be kept clean than any would suppose. Seventy-eight were made and there were found thirty kinds of micrococci, eighteen different bacilli and three kinds of sarcinae; besides, common mold spores were present in many instances.

It would seem from this that the space under the finger nails were favorable hiding places for the minute organisms which are more or less prejudicial to health, and that therein lies the poisonous element attributed to the nails. Furthermore, that cleanliness of the nails is a very important essential. It is not sufficient to use merely a knife blade, but at the toilet a nail brush and plenty of soap and water should be called into service.

Surgeons long ago learned that deposits under the nails were a menace, and that through them wounds were easily poisoned. This led to extreme care in the matter of personal cleanliness on their own part, and on the part of all their assistants.

Before an operation is performed, all who touch the patient or the instruments which are to be used must first clean their hands thoroughly with soap and water, being especially careful to have the spaces under the nails absolutely clean. After this the hands are put into disinfectant solutions.

Queen Anne's Guinea.

A chest belonging to an old man who recently died near Kingsbridge was offered for sale by his friends for one shilling, but failing to find a purchaser it was decided to use it as firewood. While it was being chopped up two hundred guineas of Queen Anne's date rolled out of a secret drawer. The lowest price of a Queen Anne's guinea is thirty shillings.

Not to Be Bluffed.

A merchant in Syracuse offered a young woman twenty yards of silk for a dress if she would saw half a cord of wood in front of his store. She borrowed a saw, spit on her hands, and went through that woodpile in just three hours, and the admiring crowd bought her a twelve-dollar hat to go with the dress.

MISCELLANEOUS.

Make No Mistake

If you decide, from what you have heard of its cures or read of its merits, that you will take Hood's Sarsaparilla, do not be induced to buy something else which may be claimed to be "about the same" or "just as good." Remember that the sole reason for efforts to get you to purchase some substitute is that more profit may be made. Firmly resist all inducements, and insist upon having just what you called for, Hood's Sarsaparilla. Then you will not be experimenting with a new article, for Hood's Sarsaparilla is Tried and True.

"In one store the clerk tried to induce me to buy their own brand of Hood's Sarsaparilla. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was, I had taken it, was perfectly satisfied with it, and did not want any other." Mrs. L. A. GORR, 61 Terrace Street, Boston, Mass.

We Are All Taking It.

Cure for Rheumatism.

G. G. Treat, of West Granville, Mass., writes of Alcock's Porous Plasters: "For rheumatism, neuralgia, pain in the side or back, contusions, sprains, and any local weakness, they truly possess wonderful curative qualities. I have recommended them to my neighbors with the happiest results, many of whom but for Alcock's Plasters would be in a crippled condition at home. In every instance where they have been faithfully and properly applied the result has been wonderfully satisfactory."

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite left away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of 8 years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever Sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him entirely. Sold at W. Plummer's Drug Store.

The Great Spring Medicine.

It will be gratifying to all who realize the vital necessity of purifying the blood, to know that Hibbard's Rheumatic Syrup can be relied upon as a blood medicine. Mr. B. C. Robinson, of Marshall, Mich., says: "GENTLEMEN—I have suffered intensely from biliousness and rheumatism for over three years and had tried so many remedies that I had lost all faith. Hearing of Hibbard's Rheumatic Syrup I bought a bottle and found it helped me. I have now used four bottles, and it has restored my liver and kidneys to healthy action, and done more to purify my blood than anything I have ever taken. I am pleased to recommend it as a wonderful blood medicine. Yours very truly, B. C. Robinson, Marshall, Mich. Sold by all druggists. Prepared by J. B. Charles Wright Medicine Company, Detroit, Mich."

A FRIEND OF NEVADA.

An Eastern Man Who Wants to See the State Play Come to the Defense of the State. The following letter was received at the GAZETTE office yesterday and explains itself. It is refreshing to find even one Easterner who does not hit the State a kick.

To the Editor of the Reno Evening Gazette—DEAR SIR: I have your issue of date of 18th inst., and have been reading R. L. Fulton's letter to the New York Tribune. Whilst I have no personal interest in the matter, I am pleased to know that Nevada has within her borders citizens who are capable of taking up the cudgel in her defence. It has often been my thought to dip a few pointed aspersions on your little State, which have come under my observation, and mail them to one of your papers. The silver idiosyncrasies of your Senators, if adopted, would be disastrous to the country, but all the same I like fair play. The "organ of the Tammany contingent," it appears to me, has not only a "beam" in its eye, but a whole crop of wood. I think your State deserves Delaware in all that goes to make up a free State, but the "organ of the Tammany contingent" utters never a word against the barbarous and iniquitous methods, political and social, which for years have marred that State's record. I am sure if Nevada were next door neighbor to the great Keystone, she would profit by her associations much more than has Delaware. Nor does the "organ of the Tammany contingent" even thunder out any denunciations of the Hudson county frauds, Pennsylvania's other neighbor across the Delaware river. To us unsophisticated Quakers, New Jersey stands as the synonym for all that is base and vile in modern politics. As to the resources of your State, no one but a fool will deny that they are great, and as Mr. Fulton shows, that they are inexhaustible. When I attempt to contemplate the wonders of the Pacific coast, I am bewildered. Nature's lavish hand has dealt bountifully with you, and the responsibilities and possibilities which confront you, are amazing. You can treat with scorn the flings of Eastern political scoundrels who would attempt to belittle your State, and can invite them to match it.

Respectfully,
KENNEDY MCNEAL.

ABOUT CORN.

Let Us Have Green Corn Without Any Worms. The Lyon county Times of the 2nd inst. says: Week before last we made a statement that but little corn was raised in this State. The Genoa Courier says we are mistaken, and that tons of as fine corn as can be grown anywhere, are raised in Carson Valley every year. From their experience it seems that it is not the frost that hurts the crop, but when the corn begins to form, a large worm gets into the ears and destroys the corn. It seems to us that a remedy for the trouble might be found. It occurs to the GAZETTE that this would be a very proper subject of investigation for the Nevada Experiment Station, and attention is called to it as one of vital interest to the people of this State.

DR. SELAH BROWN.

The Eminent Lecturer Discourses at the Baptist Church.

The discourse delivered by Dr. Selah Brown at the Baptist Church drew out a large crowd that taxed the seating capacity of the church to its limits. After prayer by the Rev. Barr, music by the choir and a lesson read by Rev. Fisher, Dr. Brown was introduced and plunged at once into the interesting discourse upon the prophecies of the bible, and in illustrations wove in the sights he had seen in Palestine, including the ruins of Babylon and Tyre, the old and the new, and dwelled especially on the desolation of the Holy Land, extending from Dan to Bersebae. It was a most interesting discourse and held the audience in wrapt attention from beginning to close.

PAINFUL ACCIDENT.

H. W. Higgins Breaks his Leg While Jumping from His Box. Yesterday as H. W. Higgins and his son Jerome were out for a drive, Mr. Higgins had the misfortune to break both bones of his right leg below the knee. It seems that the horse, which was fractious, began kicking and running, when Jerome jumped out and Mr. Higgins, in attempting to follow suit, stuck his leg through the spokes of the wheel with the above result. Mr. Higgins is quite aged and the accident will lay him up for some time.

Thatcher's Minstrels.

Thatcher's Minstrels must play in Reno Sunday evening, May 10th, or not at all. The engagements are such that they cannot get here until 11:30 Friday night, and as they play in Virginia Saturday night, Reno will have to attend a Sunday night performance or stay at home. This will be a great disappointment to many who were anxious to hear Dick Jose.

Superintendent of the Pavilion.

M. D. Foley has been appointed Superintendent of the Pavilion by the Trustees of the Agricultural Society and is working hard to have the necessary repairs made to the structure to prevent it from further decay. Mr. Foley will devote much of his time to working up a fine display of State and California products for the coming Fair.

Lawn Tennis.

A lawn tennis club has been organized and has fitted up elegant courts on the vacant lot in front of Judge Webster's residence, where the club will undoubtedly have some interesting contests. It is nice sport and the GAZETTE would like to see more courts fixed up.

A Dangerous Fire Trap.

The State's Pavilion is a dangerous fire-trap. The decorations of former occasions are piled up in the lower story and the doors are open, and a lighted cigarette would touch the whole works off. It needs attention.

PALACE DRY GOODS HOUSE.

A Brilliant Opening Day With a Mammoth Stock of Elegant Goods.

The Palace Dry Goods House held its grand opening to-day and displayed the largest and most varied assortment of spring and summer goods that has perhaps been presented to the public of Reno in its history. In their new quarters in the GAZETTE building they have ample room and a flood of light to enable them to display to the most excellent advantage the large and complete stock of dress goods and fabrics which have been selected with care and judgment for this season. The show windows contain a magnificent display of dress fabrics of the latest designs and patterns, and also samples of carpets and curtains, which invites one to inspect the mammoth stock on exhibition inside. It is needless to add that the proprietors of the Palace Dry Goods House have in the lavish manner in which they have stocked their store, shown an abiding faith in the future stability and prosperity of Reno, and have consequently presented to the public as elegant and complete a stock of goods in their line as can be found in any other metropolis on this coast.

A HINT.

A Short Lecture Intended for the Good of the Community at Large.

What is more disgusting than to see a lot of young men ranging between 15 and 20 years of age, dressed in the handsome uniforms of cadets, standing on the street puffing away at cigarettes and using language that would put to blush any rounder in Ann's Lane, London, acknowledged to be the worst street in the world? The GAZETTE hopes the cap will not fit any of the University cadets, but it thinks the faculty would do well to pay a little attention to the morals of the students as well as other things. Some of them might be taught a lesson in good breeding by hearing a lecture on good manners about standing at the entrances of churches and theaters, blocking the way and leaving at every young lady who passes.

NEVADA'S EFFORTS

To Greet the President Not Fully Rewarded.

Our State Controller, R. L. Horton, returned from San Francisco on Saturday night, where he went with the especial purpose of witnessing California's greeting to President Harrison, and he returns fully pleased and compensated for the trip. He says the Nevada people at the Bay made strenuous efforts to get a half hour set aside by the President for an interview, but it was utterly impossible, as every waking moment was disposed of and claimed under prior engagements, hence the Nevada representatives could only fall in line and take their chances with the general public. Mr. Horton, like a true philosopher, consoled himself by hearing Sara in "Cleopatra."

IN SPRING ATTIRE.

In Blossoms of Apple and Peach and Emerald Fields.

The appearance of Reno and the surrounding country on the Truckee meadows is now one of most attractive loveliness. The emerald green of the alfalfa fields, surrounded with a gray setting of sage is almost entrancing from the contrast of color, and the delicate and feathery spring foliage and variegated blossoms of the orchard trees and shade trees of the walks and parks and little groves is now a picture of exquisite loveliness. The view is seen from the University campus is one of most attractive and entrancing character, and is sufficient in itself to create a pride in our surrounding and increased faith in the future promise of Reno.

A Painful Accident.

J. Sibbald, who started east some days ago with a train of beef cattle for the Chicago market, met with a painful accident at Kearney, Neb. He was standing on a drawhead punching up a steer that was down, when the cars came together with a jar and caught his right foot between the couplings, mashing it very badly, but fortunately not breaking any of the large bones. Mr. Sibbald passed west on Saturday morning's train bound for Santa Rosa, Cal., his present home. He expects to be around again, minus perhaps a toe or two, in about six weeks.

Decoration Day.

At a meeting of General O. M. Mitchell Post, G. A. R. and the Women's Relief Corps held Saturday night, the following citizens were appointed to act with their committees to make proper arrangements for Decoration Day: H. P. Kraus, Dr. John A. Lewis, W. O. H. Martin, J. N. Evans, W. H. McLaughlin, T. K. Hyman and Sol. Levy. The committee met and organized this afternoon.

An Old Nevada Passes Away.

A Chico, Cal., dispatch received by the GAZETTE Saturday, but not in time for publication contains the following: Geo. W. Dorn died this morning aged 64 years of stomach trouble. Deceased was Treasurer of Esmeralda county, Nev., in about 1870; he was a merchant here for the past twenty years, and Superintendent of the Gas & Water Co. for the past six years. He leaves a wife and five children.

Another Good Indian.

The Indian who committed suicide by eating wild parsnip Saturday, was buried yesterday. He was followed to the burying ground by ten or a dozen squaws and one or two bucks. Judging from the number of dusky maidens who acted as mourners the brave must have been quite a favorite with the Washoe damsels.

Coroner's Verdict.

Hugh Miller was in Reno yesterday from Ball's Mills, Sierra county, California. It is reported that a Coroner's Jury found a verdict in the case of the killing of Chas. Davis there last Friday night by Miller, exonerating the latter, as the evidence was to the effect that Davis fired the first shot.

Strawberries are in the market now and sell for two bits per box. Salt Lake's spring 'is two weeks ahead of Denver's, so travelers say. More boats are running on Puget Sound than there is paying business for.

A life-saving station is to be erected on Loomis Beach, near Astoria, Oregon. The weather was extremely warm yesterday in the interior throughout California.

Captain Dayly has been arrested for the murder of F. Bauer Schmidt at Dogtown last Monday.

Attention is called to an advertisement in the 50-cent column of a wood hauling contract to let.

Strawberries are becoming more plentiful and can be bought for 20 cents a box in Truckee.

W. E. Mitchell drew his watch in Club No. 2 at Hyman Fredrick's drawing on Saturday night.

Eight hundred and two carloads of oranges have been shipped from Riverside since December.

The railway postal clerks are getting rattled again and the newspaper mail has of late been going astray.

Wagons were run through from Sierra Valley to Truckee Thursday on the stage line for the first time this spring.

The Board of County Commissioners are in session to-day and transacting the regular monthly county business.

The daily mail season commenced Saturday and hereafter daily stages will run from Truckee to Lake Tahoe and Sierra Valley.

The Inyo Independent of May 1st says: Twenty-two bands of sheep passed by Olancha, on their way north, this season.

The first election under the new law took place in Carson to-day, and was passing off quietly when the GAZETTE went to press.

The ladies of the W. C. T. U. are endeavoring to have scientific studies on temperance introduced into the Sonoma county, Cal., school course.

While on his way in a buggy to Virginia from Dayton, J. W. Westfield was stopped by a masked highwayman and relieved of \$7 Saturday.

J. G. Kerth at the Granite saloon has now on draft Book beer of excellent quality. Now is the time to try it for the season is short and will soon be over.

The Sonoma Lumber Company's mill at Guerneville one day last week cut over 50,000 feet of lumber in eleven hours with one circular saw, a record unbroken on the Coast.

A Mr. Hazeltine, an old-time Stocktonian who recently died in Tarrytown, N. Y., has left \$75,000 of his large fortune to be devoted to securing a public library for Stockton.

Miss Alice Woodward, at Birmingham, Ala., died Friday, dying from exhaustion caused by hiccoughing. Everything known to the medical world has been done to relieve her, but without avail.

The Commissioners have leased the block of ground recently purchased for park purposes in the Powning addition for \$200 per year. An Italian will make a garden of it this summer. He is now putting the ground in shape.

The palatine horse car "Palo Alto" was attached to the overland east-bound express yesterday morning and carried the flyers of the Undine stables, consisting of Renfax, Racine, Nero and Tycoon, destined for Chicago.

The Sierra Valley Leader says: The Reno GAZETTE advises the Nevada cattle men to form a trust on foot. It might be a wise thing to do, and the beef eaters cannot kick if their beef is also taxed.

The Alaskan explorers, Wells and party, are safe. They have arrived at Fort Townsend from Sitka on the steamship Mexico. Their experiences have been of a thrilling character and will appear in the New York Journal which sent the party out.

The Inyo Independent of May 1st says a very few apricots in that town have been discovered untouched by frost. It frequently happens that the fruit is damaged by frost in the Owens valley, and it is a climatic condition that cannot well be guarded against.

There is more benefit in a good laugh than in all the hot-water remedies, faith cures, cold water, electric and all other new-fangled treatments in the world, and it does not cost anything. Laugh. If you know of nothing else to laugh at, laugh at your neighbor. He is probably improving his health by laughing at you. Then buy your spring suits from John Sundeland and get a stylish straw hat at the same time.

Don't Throw up the Sponge!

That hideous ogre, Giant Despair, often fastens his clutches upon the chronic invalid. Constantly plagued by dyspepsia, biliousness and constipation—nervous and sleepless too—what wonder is it that having tried in vain a multitude of useless remedies he is ready, figuratively speaking, "to throw up the sponge." Let the unfortunate "take heart of grace." Hostetter's Stomach Bitters can and will put a terminus to his trials. It strengthens the stomach, confers nervous vigour, promotes assimilation to the food, arouses the languid system, restores the ability to sleep soundly. Nothing then can stay the renewal of health but imprudence. Hostetter's Stomach Bitters, moreover, transcends all other aids as a remedy for malarial, rheumatic and kidney complaints. A winged messenger times a day.

PERSONALS.

R. H. McConaughy is in from the north. Jim Yerington came up from below this morning.

Senator McDonald came up from below this morning. S. P. Davis and wife came up from San Francisco this morning.

E. Reinhardt, the Winnemucca merchant, passed east yesterday. Regent E. T. George returned home to Lewis on last night's train.

C. C. Fowning and wife returned from California yesterday morning.

W. U. Scott is in from the north. He reports his sheep as doing fine.

Fred Birdsell, formerly of Dayton, accompanied by his wife, passed east this morning.

E. C. Crutcher, formerly of this State, but now of Woodland, Cal., is visiting Reno.

Walter Fullmer is visiting Reno to-day while enjoying a holiday vacation from his duties in San Francisco.

H. Piper, the well known long distance rider, went east this morning to fill an engagement at Chicago to ride 50 miles in two hours.

Uncle Jake McKissick is in from Long Valley. Although 80 years of age, the old gentleman is as hale and vigorous as a youth of 16.

Miss Jennie Lachman left Reno for Oakland on last Saturday evening on an extended visit, where she goes to perfect her musical training. As she has already received an excellent training in instrumental music, it is reasonable to expect that she will develop into an accomplished artist.

A New Organization.

Miss Mamie Sweeney, Grand President of the Y. L. I. of the Pacific Coast, organized Y. L. I. No. 23, on Thursday evening, April 30th, at the hall of the Y. M. I. in this city. The following officers were installed: President, Mrs. Mary McCormack; Vice President, Mrs. Nora Flanagan; Second Vice President, Mrs. Armenia Webster; Marshal, Miss Nellie Madden; Recording Secretary, Miss Mamie Alt; Financial Secretary, Miss Mary Kelly; Treasurer, Miss Jennie McKernan; Trustees, Miss Mary Henry, Mrs. Mary Burke, Mrs. Margaret Gulling, Miss Lida Savage and Miss Mary Griffin; Outside Sentinel, Mrs. Mary Campbell; Inside Sentinel, Miss Mary Clarke; Examining Physician, Dr. Phillips; Organist, Miss Mary Kelly. After the installation of officers a sumptuous banquet was partaken of by all the members.

Deep Creek.

The Salt Lake Tribune says: The Deep Creek stage line will reach Fish Springs to-day, and in a short time the line will be extended to the heart of the Deep Creek country. Quite a number of tickets are sold at the office in this city, but the majority of the treasure-seekers secure transportation at Stockton. Under no circumstances will money be expressed by the line, as the festive highwayman is likely to commence operations at any time.

A BUSINESS PROPOSITION.

A City Lady Who Required Proof Before Believing. There recently appeared in the San Francisco Call, Chronicle and Examiner, a proposition hitherto unheard of. It was an advertisement in which the Edwin W. Joy Company, in proof of the curative properties of Joy's Vegetable Sarsaparilla, offered to submit it to the terrific test of "no cure no pay." Many accepted, and their experiences were so convincing as to be almost beyond belief. Here is another, written under date January 6, 1890:—

DEAR SIR: I accepted your offer to test the merits of your vegetable remedy in sick headaches, and called for a bottle and got it. I had been troubled for a long time, and had tried nearly everything, with little or no effect; but Joy's Vegetable Sarsaparilla acted almost like magic, and the first bottle relieved me from one of the worst cases of sick headache one ever had.

MRS. M. B. PRICE, 16 Prospect Place, San Francisco. We will from time to time publish others of these letters. It is doubtful if any remedy was ever before submitted to such a severe ordeal.
